

Application Development

Gain from our Experience,
Achieve your Application Development Goals

Overture consists of a small group of highly knowledgeable technology experts who listen to and collaborate with our clients to maximize organizational efficiencies by leveraging the latest proven technologies, frameworks, best practices, and methodologies. We specialize in technologies such as .NET, SharePoint, HTML5, JavaScript, CSS3, jQuery, and AngularJS to deliver highly functional and captivating experiences. Our goal is to show our clients how technology when implemented correctly; leads to efficiency, increased productivity, improved communication/collaboration, and cost-effective business practices. We show you how to use technology to grow your business providing you with an edge over your competitors.

Development & Implementation

Success depends on the right combination of technology, strategy, and implementation. We integrate these critical ingredients to develop a customized solution for your organization, building on out-of-the-box framework and platform features to achieve increased ROI more rapidly while lowering development and lifecycle management costs for you.

Public & Private Sector Expertise

A partnership with Overture Consulting is a pledge to the success of your application development project. As a Microsoft Certified Partner, Overture offers end-to-end Application Development services and solutions, delivered either On-site or remotely. Our innovative team has extensive experience delivering successful projects across industries including healthcare, hi-tech, pharma, manufacturing, telecom, retail, financial, and Government.
