

VMWare Consulting Services

Gain from our Experience, Achieve your VMWare Implementation Goals

Today's business environments are increasingly fast-paced, global, and mobile. More than ever, growth and profitability depend on thoughtful and decisive innovation. CIOs and IT leaders in every industry are challenged to evolve their people, processes, and technologies to meet growing business demands and opportunities. Which is why more and more of them are turning to VMWare.

Overture's VMWare Consulting Services provide the skills, experience, and training to help your business realize the full value from its VMWare investment. We help IT organizations with our extensive experience and unparalleled expertise in virtualization and cloud computing made possible by VMWare technologies. Our expert consultants collaborate closely with your teams to enable IT outcomes that accelerate business innovation, empower employees, preserve customer trust, and streamline time-to-value.

Services That Deliver Results

The Overture VMWare Service Portfolio is comprised of three categories of offerings. Each is architected to help our customers realize IT outcomes that drive tangible business value both during the engagement and long after it's over. The VMWare services we offer include; Advisory Services, Operations Transformation Services, and Technology Consulting Services.

Public & Private Sector Expertise

A partnership with Overture Consulting is a pledge to the success of your VMWare project. As a VMWare Certified Partner, Overture offers end-to-end VMWare Consulting services and solutions, delivered either On-site or remotely. Our innovative team has extensive experience delivering successful projects across industries including healthcare, hi-tech, pharma, manufacturing, telecom, retail, financial, and Government.
